Cost of Demolition: \$ _____

Description of Demolition: _____

For demolition the following actions must occur:

1. Owner to have natural gas and electricity turned off at the street;
2. Owner to have water turned off at meter;
3. Owner to call inspector (O'neal Tiller at 770-338-8000) once utilities have been turned off and prior to demolition for safety inspection; and,
4. Georgia EPD requires a separate permit and asbestos inspection to be filed 10 days prior to demolition;
5. Gwinnett County Fire Marshal requires a separate permit for burning;
6. Grayson's permit does not include inspections for asbestos abatement or burning; and,
7. A final inspection will be made prior to issuance of Certificate of Completion.

I understand that gas line and electric wiring disconnections require inspection prior to demolition. Re-inspections require additional fees.
